ANDREA MAVILLA

SENIOR CYBER THREAT INTELLIGENCE SPECIALIST

THREAT INTELLIGENCE & PROJECT EXPERIENCE

OSINT & THREAT ANALYSIS

Collected, assessed and correlated open-source information to reconstruct events, identify risk indicators and organize findings in structured intelligence dossiers.

DATA EXPOSURE & DIGITAL TRUST

Assessed data exposures, potential digital identity misuse and weaknesses in communication channels, focusing on the impact on organizations, institutions and individuals.

CYBERSECURITY & RISK COMMUNICATION

Reviewed cyber risk scenarios, documented security concerns and prepared technical summaries and mitigation guidance for stakeholders with different levels of technical expertise.

WEB REPUTATION & INFORMATION PROTECTION

Researched and assessed online content, news outlets and digital platforms; supported legitimate requests for corrections, removals and search-engine delisting under applicable rules.

TECHNOLOGY & METHODOLOGIES

OSINT • TCP/IP Networks • IT Risk Management • Database & CRM • Apple Ecosystem • Jamf • iCloud • Google Workspace • Project Management

PROFESSIONAL APPROACH

Analytical methodology based on source evaluation, evidence correlation and clear separation of verified facts, hypotheses and risk scenarios. Produces reports and documentation to support decisions on risk mitigation and information protection.
